

The Savings Audit.

We find every point where your work stops — and prove what removing them is worth, on your real data.

Fee \$25K fixed • Timeline 30–60 days • Credit 100% toward a build

YOU LEAVE WITH

- **The savings map.** Every manual workflow, costed in hours and dollars.
- **A board-ready number.** What a build costs, returns, and pays back — from your data.
- **One automation, live.** Built on your real data, in production, during the audit.
- **A straight answer.** If the number isn't there, we tell you. You keep everything.

HOW IT RUNS

WEEKS 1–2

Map

We sit inside your operation and cost the manual work. Zero disruption.

WEEKS 2–4

Build

The highest-pain workflow gets rebuilt — governed, on your live systems.

WEEKS 4–8

Prove

It runs in production. We measure, extrapolate, and hand you the case.

- **In and out, or ongoing — your call. The audit stands alone.**
